# ADD VALUE AND TAKE CONTROL WITH PIPS

One of the biggest challenges is also one of the biggest opportunities, our new PIPs program enables incremental business with existing customers as well as advanced fleet management.

Our scalable software offers everything from simple print auditing through to complete software integration and fulfilment (PixPax) across multiple vendors. The intuitive interface runs in windows and enables you to set up schedules which are automated and viewed on a simple dashboard giving you the information when you need it without any of the effort.

**Call now and watch your profits grow.**

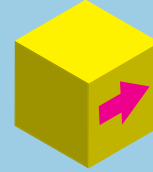

**datadirect**

## DATA & MONITORING

---

PIPs discovers all networked printers and MFP's, providing real time information to enable new opportunities with your customers.

## PIXPAX

---

PIPs enables alerts sent for consumables to be delivered through our PixPax system direct to your customer, reducing stock holding, improving efficiency and increasing sales.

## SECURITY & TRUST

---

PIPs retains all your customers data securely with unique user defined access, ensuring your data is your own.

# 123

## PLUG 'N' PLAY

---

PIPs runs on windows software making it easy to install and simple to use.

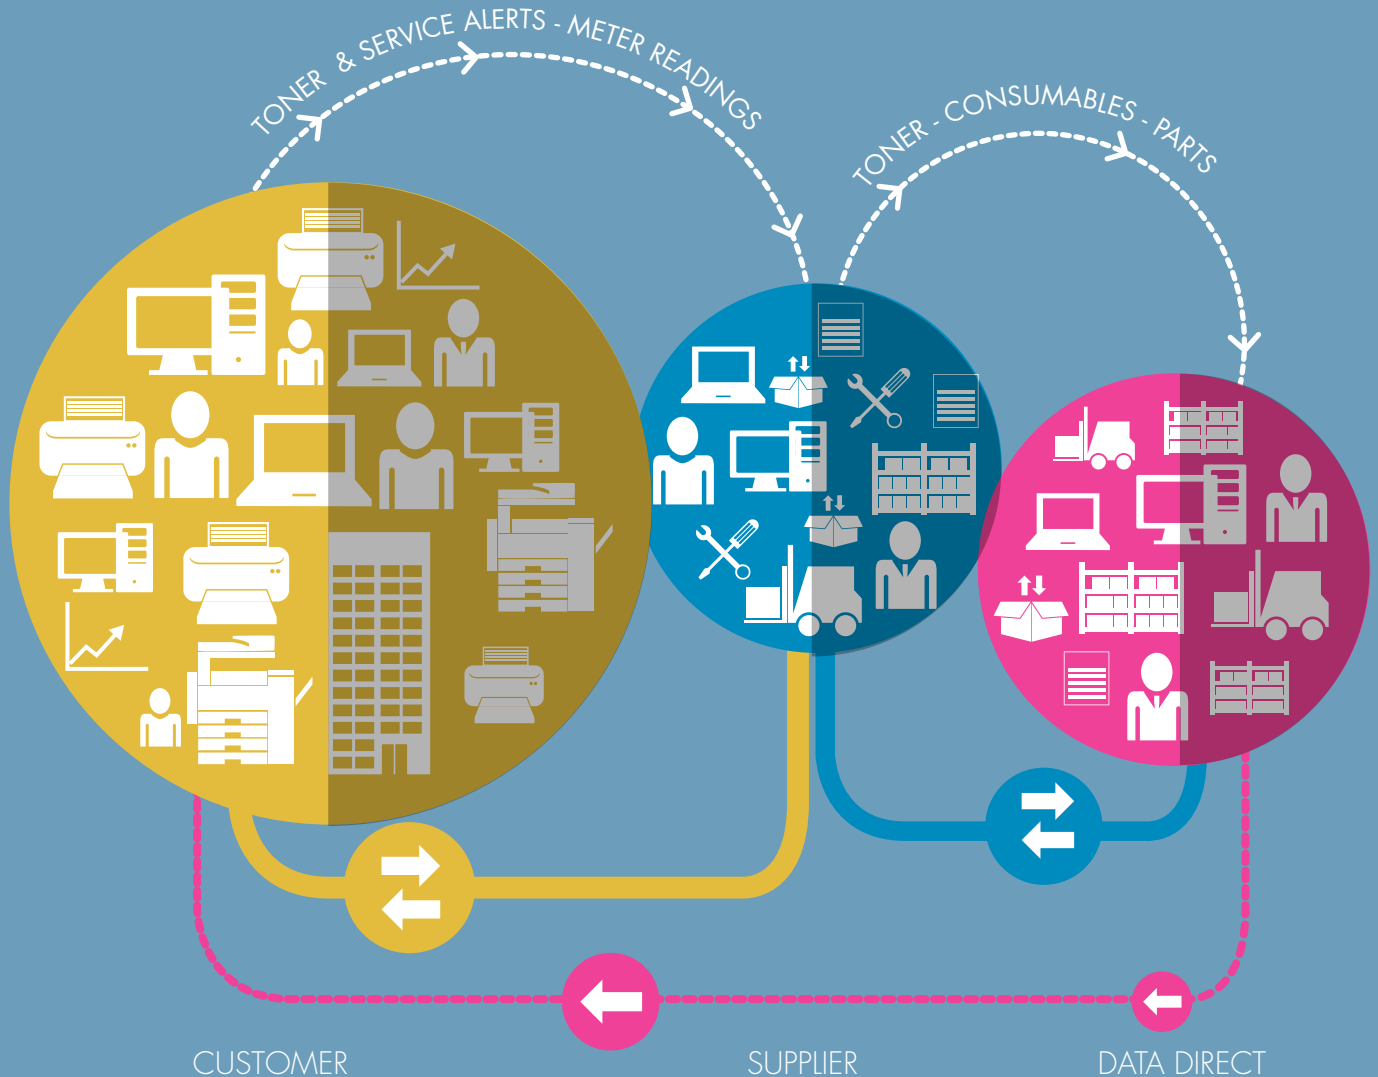

## FEATURES AT A GLANCE

- Agent runs a Windows based service so no user intervention is required
- Automatic discovery of network print devices, so no manual entry is required
- Multi scan groups for greater flexibility
- Results are automatically uploaded to PIPs Virtual Web server
- Scalable solutions license is based upon number of machines monitored
- Back office software integration and PixPax
